Subject: Some news

Hi Larry – First off, congrats on outlasting Trump and being given the honor of serving as transitional AA. I'm happy for you. You'll do great with Team Biden.

I wanted to give you a heads-up that I am biting the bullet on my bi-Atlantic existence. It has now become clear that [Ex. 6 Personal Privacy (PP)] continue on for a number of years, and it's time for me to align more meaningfully with that reality. The short of it is that I have asked the ELI Board to start the process of finding a new President for ELI. A national search will be undertaken, and the process will take some time, such that I expect they will have found a successor for me by late summer, early fall. I have suggested that we aim for this year's award event (October 19) as a good moment for the passing of the leadership baton. That's our goal.

Word of this will start working its way out; I wanted you to hear it from me first. There's no reason that this should affect ELI's INECE work, and I expect that I will be able to remain involved down the road as needed. On the other hand, Avi is leaving us to take another job, so we will need to rebuild a bit around that. Manageable, but something to deal with.

Apart from that, things are feeling a little lighter now, no? At last!

All the best,
Scott

Scott Fulton
